

John Kocer – Press & Media Kit

Short Bio

John Kocer is a technology executive, software architect, and author of over 100 technical books and publications. With more than 15 years of experience in software engineering and innovation leadership, John specializes in cloud computing, AI/ML integration, DevSecOps, and Agile transformation. His work blends technical depth with real-world practicality—whether building billion-dollar enterprise systems or empowering everyday homeowners through practical guides.

His latest release, *HOA Problems Solved*, helps homeowners and board members navigate the legal and operational complexity of living in an HOA community.
